

Braille and Talking Book Library Descriptive Video Service (DVS)

Part 2 of the DVS Collection

The Descriptive Video Collection provides borrowers with access to described videos that can be played with your own DVD or Blu-Ray player and television. No other special equipment is required.

Descriptive Videos contain a soundtrack with narration of the key visual elements of the film to make them accessible to viewers with visual disabilities. These key visual elements include any part of a presentation that blind or visually impaired viewers would ordinarily miss, such as the characters' actions, costumes, gestures, and facial expressions, as well as scene changes and onscreen text. Understanding these visual elements is often essential to fully understanding the program or film.

Borrowers who damage or lose a video will have their privileges to the Descriptive Video Service revoked until the replacement cost is paid in full.

How do I avoid damage to the videos?

The DVD or Blu-Ray discs are exactly like CDs, they are small, round, fragile, thin plastic discs.
