Digital Talking Book Player Dos and DON'Ts

DO play your digital talking book player with or without having it plugged in.

DON'T leave your player UN-used for long periods of time without having it plugged IN.

DO leave your player plugged IN, if you can.

DON'T expect the battery to always recharge to the original 29+ hours it had when new (anything at or above 12 hours is considered acceptable).

DO call us for a replacement machine if your battery won't charge above one hour.

(Continued from page 6)

DON'T be surprised if the charging time drops dramatically from one time to the next – especially if you have been using a flash drive instead of a cartridge.

DO call us for a replacement machine if your battery charge time is too short for your convenience (if it is charging less than 12 hours).
