

Owl Paper Plate Craft

This simple-to-make owl is a cute craft that is made from three paper plates.

Supplies needed:

- 3 paper plates
- Yellow, brown or orange construction paper
- Scissors
- Glue (or a stapler)
- Googly eyes (optional)
- Crayons, paint or markers

	<p>On one paper plate, fold about a third of the plate over (have the bottom of the plate facing forward). This paper plate will be the owl's head.</p>
	<p>On the folded part, cut two short slits and fold them back up. (These will be the owl's tufts - although they look like ears, they are only feathers. An owl's ears are simple holes on the sides of the head).</p> <p>Glue the center section down.</p>
	<p>Glue googly eyes on the folded-down section (or cut two large circles and glue them down, then draw a dark dot in the center).</p>
	<p>Using construction paper, cut a small half-circle with a little square off the rounded side. Curve the edges around, forming a cone. Glue or staple it shut.</p>
	<p>Glue the cone to the paper plate (using the rectangle, folded inside the cone), just beneath the folded part of the paper plate.</p>
	<p>Glue or staple the head to another paper plate.</p>
	<p>Cut another paper plate in half (these will be the wings).</p>
	<p>Glue or staple the wings to the body at a slight angle.</p> <p>Using construction paper, cut two tiny feet. Glue them to the body.</p>
	<p>Color in the owl, drawing feathers, wings, or other patterns</p>
